Ethical Entrepreneurship

Develop ethical business thinking and practical skills to turn ideas into income-generating ventures that create value for customers and communities.

Who it serves

Young people aged 13–25. For public and private schools, businesses, youth and aftercare centres, NGOs and organisations working with youth.

Choose your delivery

Choose from 12 modules combining theory and practice. Options include 1–2 day training, or a recommended 6–10 month journey with weekly facilitated sessions and a real business launch.

What participants explore

- Ethical and unethical business practices
- Purpose, entrepreneurial character and SMART goals
- SWOT analysis and idea generation
- Implementation, entrepreneurship and intrapreneurship
- Vision, mission, mentorship and final presentations

What this supports

Strengthen initiative, teamwork and problem-solving while preparing young people for responsible economic participation.

Our long-term aim is to help young people create income, support their families and contribute to reducing unemployment and poverty through ethical enterprise.
